

ATTENTION COURSE BOOK BUYERS:

Use the
**Power of
Consolidation**
with
NACSCORP
to

save time,
effort, and
activity costs

The next time you source course materials, take advantage of the NACSCORP “**POWER OF CONSOLIDATION**” to benefit from the efficiencies and value-added services, as well as the extraordinary breadth and depth of our title database —4 million books from 15,000 publishers.

WE HELP CUT YOUR TOTAL ACQUISITION COSTS

The “total acquisition cost” of a book includes the cost of the book itself, plus many other components such as:

Buying/Accounting costs: *creating a PO, creating chargebacks, managing multiple relationships, payment/billing terms*

Handling costs: *freight in, receiving and stocking product, packaging returns/freight out, inventory carrying costs*

Imagine how all these costs will multiply over the number of individual transactions placed. When you consolidate 10 small orders into one order from NACSCORP, those ten-fold costs turn into a one-time transaction. Plus, sourcing more of your book needs from NACSCORP allows you to enjoy these value-packed efficiencies:
